

Too Late For Living

"Happy Now"

I hate how i'm in love with you,
it allways causes so much pain.
I wish we could have just worked out,
but you allways have a problem
and you never tried to solve them.
We could have worked it out.

I gave up my heart and soul
and you did the same.
You stole yours back
and i'll never get mine.
You can have them for the rest of my life.

I always let your fellings win.
I never tried to let mine it.
I've allways wanted you to be
happy no matter how much my pain.

And I cry
(for you)
And i'd die
(for you)
And I cry
(for you)
And i'd die for you.

You crushed my soul
and you killed my heart.
You've made my life fall apart.
All i want is to be happy,
all i want is us to be happy
happy, happy, are you happy now
that you've killed
me for the rest of my life
