I know a place where diamonds never fade away  
My dearest friend is shining brighter day by day

Any day is a new chance  
Any day is a new chance  
Any day is a new chance  
A new romance

I know a place where diamonds never fade away  
I know a place where hate and innocence can play

Any day is a new chance  
Any day is a new chance  
Any day is a new chance  
A new romance

Any day is a new chance  
Any day is a new chance  
Any day is a new chance  
A new romance

A new romance
