I can't stop moping - I can't stop crying

I just ain't coping - don't feel like trying

"Don't ditch me," I cry, but this is her reply

She said "Oi mush, you've got the push goodbye!"

[Chorus:]

Some days, she said they're through, I always knew
she'd leave again

Some days, she lied through her teeth, she'll be back
with Keith some day

My heart is broken - jilted she blew me out

A mug once again, He's been dumped there's no doubt
that

[Chorus]...

[Guitar Bit]

She's gone I'm alone, I must be off my head

Guess I should have known, she's keeping Keith
instead

Drop Dead!

[Chorus]
