Intro

This song is for the ones that hold us down
that stayed around
we appreciate the love y'all
[Repeat]

I got a whole lot to say, that ain't said enough
U make better days, when it comes to us
and I don't feel like you'll walk away (away)
From the way you stroke my back, to how your muscles
flex
How you so good at sex
The way you work your lips, I could never just walk
away (away)

Cause I know we make it hard
How we try to change who you are
When we really love it all
Thank you for being who you are

Chorus

This ones going to be my boyfriend
This ones going to be my baby
This ones going to be my man
Cause I appreciate his love yall
[Repeat]

Now it's our turn to say, you're beautiful
You got a big ole, uuhhh, you're a work of art
And that's the reason why we act a fool (a fool)
I'm in love with the way that u hold me
Scream out, turn around and console me
Keep me sound, while you stand your ground
I know I'm safe when you're around

Cause I know we make it hard
How we try to change who you are
When we really love it all
Thank you for being who you are

Chorus

This ones going to be my boyfriend
This ones going to be my baby
This ones going to be my man
Cause I appreciate his love yall
[Repeat]

I been holding it down, for you, for you
I'd be on my way down, if it hadn't been, for you, for
you,
Wanna be everything yeah, for you, for you
I'd have nothing to say, if it hadn't been, for you, for
you

Chorus
This ones going to be my boyfriend
This ones going to be my baby
This ones going to be my man
Cause I appreciate his love yall
[Repeat 3X]

This song is for the ones that hold us down
that stayed around
we appreciate the love y'all.
[Repeat]
