Hey Paulie
Hey Paulie
Tell me something good today
We're tuning in bright and early
to hear what you got to say
and Paul...
We love it when you're on fire
something in the news, lit your fuse
got us hanging on the wire
Chorus:
Hey Paul Westcott, You're on the inside
and we don't wanna do without
your finger is on the political pulse
tell us what it's all about
and maybe...
you might make us laugh
with pork and beans, and a side of cheese
to keep our day on track
Chorus:
Hey Paul Westcott, You're on the inside
and we don't wanna do without
your finger is on the political pulse
tell us what it's all about
Paul knows what it's all about
