I love you. You know I do.
Yeah it's perfect...well it isn't and it is...

And I've been meaning to call you
I've been meaning to call you
Then I do.
I've been meaning to call you
I've been meaning to call you
Then I do.

Phone rings once
Phone rings twice
Phone rings three times
I am of you
You are in everything I do
I do

I trust you, that makes you true.
I don't care if it isn't the way it is
I've been meaning to call you
I've been meaning to call you
Then I do

Phone rings once
Phone rings twice
Phone rings three times
I am of you...You are always in view...
Yes I am My will
But you are in everything I do
I do... I do... I do... I do...

In the Dark Erasers dark of night
In the Excited States, gone in plain sight
Under the wave or by cavelight
I lose, things change, but never in your eyes

I am of you... You are always in view...
Yes I am My will
But you are in everything I do
