

Tragically Hip, The "Let's Stay Engaged"

Visit "[Let's Stay Engaged](#)" on MotoLyrics.com

It might be late but it won't be early
you got me to the gate with time for a coffee
it's getting late sounds like a departure
Until we meet again lets stay engaged
until then lets stay engaged

Lies over time float to the surface
lies over time they equal surface
lies over time though the reasons desert us
lies over time with no apparent purpose
Until we meet again lets stay engaged
until then lets stay engaged

See the dead art and you see your reflection
fear no art and you fear no reflection
but don't look at me I'm not the artist in question
sounds good to me but I'm not the artist in question
Until we meet again lets stay engaged
until then lets stay engaged
