

Tragically Hip, The "Lionized"

Cold wind blowing over your private parts
I know a lack you've got
and it makes a strong case for art.
Billboard breasts, they don't have a face,
I know that fact you've got,
no girl could ever trace. Lionized,
Smoking just a little too violently
I know that fact I've got
and I know it single-mindedly
Stupid, stoned cause and effect
I know a lack you've got
and you don't even lack it yet.
Lionized, lionize

I can't draw, but I can trace
I know a lack I've got,
an abundance of extra space
Cold wind blowing over your private parts
I know a lack you've got is to make a
strong case for art. Lionized, lionize
