She motions baby come on with it, come on with it.  
I'm ready for anything, baby you and me.  
I'm feeling so over this, I'll let go of it.  
I'm ready for anything,  
Can't you see through me?

She said take me like you want me,  
cause you're never gonna get me alone, again.  
Take me like you want me cause you're never gonna  
get me alone, and I think you should follow me out,  
follow me out!

So lets go out tonight,  
I'm gonna show you all the ways I want you.  
Show me the way that you move your body,  
you know I love the way you dance up on me.

So let's go out tonight,  
and we can tear this town apart together.  
If you wont speak then I wont wait,  
we shouldn't think about it anyway.

Hold on tight, close your eyes,  
just take a breath and hold it in, and it'll be alright.  
What I'm trying to say, is that there is no other way,  
I'm thinking you should just stay and take me...

Take me like you want me,  
cause you're never gonna get me alone, again.  
Take me like you want me cause you're never gonna  
get me alone, woah woah

So lets go out tonight, I'm gonna show you all the ways  
I want you. Show me the way that you move your body,  
you know I love the way you dance up on me.

So let's go out tonight,  
and we can tear this town apart together.  
If you wont speak then I wont wait,  
we shouldn't think about it anyway.

And I don't mean to be rude, I just have to ask you...  
This time I know I'm ready for this, I know this time I'm  
ready for you.

She Says "Alive, Alive is my body tonight"  
Im dying to feel you inside, it's only this way for  
tonight.  
Well this time I find you where I wanted to,  
In time the consequence will find a way to dig at you.  
I don't mean to be rude I just have to tell you...

So lets go out tonight, I'm gonna show you  
all the ways I want you, show me  
the way that you move your body,  
you know I love the way you dance

And I don't mean to be rude, I just have to ask you...  
This time I know I'm ready for this, I know this time I'm  
ready for you.

She said "I've done it again, I've done it again,  
she's smiling while undoing her dress,  
and loving this mess created by the loneliest kiss put  
on my lips  
I know â€¦  
So lets go out tonight!
