"Resting Heads"

Visit "[Resting Heads](#)" on MotoLyrics.com

You're killing me, You're bringing me down
and You're changing me, You're bringing me down
You rest, rest you're head
and you're killing me, you're bringing me down
Run like the way, like you, like me
Run & Behave like, like you
You're killing me, you're bringing me down
and you sadden me with your apathy now
you rest, you rest your head
and you're killing me, you're bringing me down
Run like the way, like you, like me
Run & Behave like, like you
You're killing me, you're bringing me down
and you sadden me, with your apathy now
Run like the way, like you like me
Run & behave like, like you
