"Saturday Night"

Visit "[Saturday Night](#)" on MotoLyrics.com

every night is a saturday night (repeat)
saturday not for me

been on city boulevard broken and neglected
when the sun sets expect the unexpected
listen to me closely i am gonna stay shut up
.. upon the smell causing a€¦in a necked city
things can go so wrong city or no city
..two male were knocking at my door

every night is a saturday night (repeat)
saturday not for me

i see things a little different through the blood in my
eyes
you might fool the mothers i see through you in
disguise
all rise i am getting by no lies i am getting high
i am not worried about the next you can bet i will get
mine
..my old lady got .. on my hip
we live the three way .. but i know we are still on the
hunt

every night is a saturday night (repeat)
saturday not for me

i was moving town to town
and never gonna slow us down
never .. up never a sign.. born to ride
i got a monkey on my back is a cause of reminder
let's me know i need to let it go there are no survivors
till i .. rolling i am getting high
my lungs and my liver are begging me to retire

every night is a saturday night (repeat)
saturday not for me
