Nighttime is here it all starts again
I see alot of mobs spawning in
it's barely dark but its all going down
i start to think , well there goes the town

Where them mobs at,mobs at?
Where them mobs at,mobs at?
Where them mobs at,mobs at?
Creepers and Skeles, are everywhere

Hey,they're all here and it's getting crazy
with the fires that they just started
They wanna boom, explosions, I swear,
my golem just died from zombies

I'm yelling out on chat, Hey I need some help,
and everybody's invited.
Bring your Bow and arrows, A diamond sword would
help,
they killing everybody. (Need some help)
Grab a sword and enchant it (Golem Kill)
and some pork if you got it (If you will)
battle cry, get it started (NOTCH!!!)
We Got it.
Spawners are spawning too much
creepers spawning too much
10 to one of me, and they all blow up
I jump outta reach, we all start to run
holla to each other, when's the sun come up.

Night time is here it all starts again
I see a lot of mobs spawning in
it's barely dark but its all going down
i start to think, well there goes the town

Where them mobs at,mobs at?
Where them mobs at,mobs at?
Where them mobs at,mobs at?
zombies and Spiders, are everywhere

Creepers, skelly's, why you always fightin?

every single night it's the same thing, fightin
Anyway, it time for you to die again.
you can die by bow, or die from explosions.

Oh no I don't support that, Pause it, Rage Quit,
Just the other day I'm mining diamonds, found dem
creeper spawning next to me sneakin peakin
[Creeper saying]
SSSSSSSSay hey, it's a nice day.
it would be a shame to blow you away.
[Character saying]
running through the mines, all the mobs in back of me
Spiders, Skeletons, Creepers, ZOMBIES!!!

Really, my iron sword be breaking like really,
running in the dark and feeling so silly,
whyĐs everything down here try to
Kill Me, Kill Me, Kill Me, Kill Me...

Night time is here it all starts again
I see a lot of mobs spawning in
it's barely dark but its all going down
i start to think , well there goes the town

Where them mobs at,mobs at?
Where them mobs at,mobs at?
Where them mobs at,mobs at?
blazes and ghasts, are up in the air

Mobs sounds instead of day day part.

Yo, where them mobs at uh, hmm, uh
Yo, where them spiders tryinĐ ta kill me jumpinĐ.

Night time is here it all starts again
I see a lot of mobs spawning in
it's barely dark but its all going down
i start to think , well there goes the town

Where them mobs at,mobs at?
Where them mobs at,mobs at?
Where them mobs at,mobs at?
I wish that we, could all be friends...
