I know what you've all been thinking
I know what you've all been thinking

You've had to put in the hours
I was born with special powers

ESP is good for me
ESP is good for me
ESP is good for me
I am the psychic

There's no point in whispering
All your secrets, I can hear them

I've seen every scene you're in
I've seen every sin you sin

ESP is good for me
ESP is good for me
ESP is good for me
I am the psychic

Second guessing is doing your head in
Second guessing is doing your head in
Second guessing is doing your head in
Second guessing is doing your head in

I am the psychic
I am the psychic
I am the psychic
I am the psychic

I am the psychic
I am the psychic
