Another bunch of kids in a bloody mess  
Another maniac killing innocence  
Analysts and experts on CNN  
Explain away the pain on a day so grim

"Without the dark the stars can't shine  
Heartbreak to hope through the hard times"  
But things could change to save more lives  
I think you know

Why oh why do they second guess Gun Control  
My, my, my what an ugly mess, Bless their Souls

I don't want to hear about his troubled past  
There are a million little freaks with a past like that  
People saying there was something wrong with his  
head  
If he couldn't get gun there'd be nobody dead

Why oh why do they second guess Gun Control  
My, my, my what an ugly mess Bless their Souls

"Without the dark the stars can't shine  
Heartbreak to hope through the hard times"  
But things could change to save more lives  
I think you know as well as I

Freedom to take other people's freedom away  
Is this what has become of the USA

Why oh why do they second guess Gun Control  
My, my, my what an ugly mess Bless their Souls
