Baby I love you & I'll never let you go
But if I have to boy I think that you should know
All the love we made can never be erased
And I promised you that you will never be replaced

Baby I love you & I'll never let you go
But if I have to boy I think that you should know
All the love we made can never be erased
And I promised you that you will never be replaced

I love you
Yes I do

I'll be with you as long as you want me to
Until... the end... of time
From the day I met you I knew we'd be together
And now I know I wanna be with you forever
I wanna marry you and I wanna have your kids
Thinking never compared to the feeling of your kisses

I can say I'm truly happy to this day
You've made me thank god that I've lived my life
everyday
There's never been a doubt in my mind
That I regret ever having you by my side

But if the day comes that I have to let you go
I think there's something I should probably let you know
Enjoy in everyday that I spent with you
And I won't miss you 'cause I'm happy that I had you at
all

Baby I love you & I'll never let you go
But if I have to boy I think that you should know
The love we made can never be erased
And I promised you that you will never be replaced

Baby I love you & I'll never let you go
But if I have to boy I think that you should know
The love we made can never be erased
And I promised you that you will never be replaced

You will never be replaced

I feel for you yes I do

I'll be with you as long as you want me to

Until... the end... of time...
