## "you're in love with me too"

Visit "[you're in love with me too](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Oooohhâ€¦yeah

Oooohhâ€¦oh

If I simply asked u to give me your all  
Would u turn away, would you lend your heart?  
And if I said I love, would I scare you away?  
I'm down for forever, not playing no more games

Baby but i love your care  
But I said I don't know  
And my life is different  
since you've been so distant  
every time I get close to you  
you go away, when I finally forgive you  
you come back to say  
you miss me, say you miss me

There's no question I can answer  
None that I cant see, no words to speak..  
When im not around you, when im not around you  
But you act like you don't care about me  
Like you can live your life without me  
But I know the truth  
Youre in love with me, you're in love with me  
Youre in love with me too

If you've been hurt before then tell me the story  
cuz im not going anywhere,  
no matter what you got to tell me,  
cuz Im been though some things that made me look  
and feel different  
But I met you I'll learn to change  
If you just listen, I love you babe  
And I miss you babe  
Come back to me, please baby

I need you to say, don't go away  
My heart cant feel no more pain  
Ooh baby ooh

There's no question I can answer  
None that I cant see, no words to speak..

When im not around you,  
But you act like you don't care about me  
Like you can live fine without me  
But I know the truth  
Youre in love with me, you're in love with me too  
Youre in love with me too

You will give up something  
I will never hold back  
And I'll you know if im ready  
What I'm ready, What I'm ready for  
Please tell me that you love you  
Its like a living angel saying  
But I love you and I wanna tell you something

I love you babe  
And I miss you babe  
Come back to me, please baby  
I need you to say, don't go away  
I cant feel no more pain  
Ooh no baby

There's no question I can answer  
None that I cant see, no words to speak  
When im not around you,  
But you act like you don't care about me  
(why do you act like you don't care)  
Like you can live life without me  
I know the truth  
Youre in love with me,  
you're in love with me too
