What a difference a day makes  
There's a change in the weather  
One minute it was stormy  
Now the sun shines forever

I dream of a new world  
A change is going to come again  
Yesterday I hadn't met you  
Now will it ever be the same

(Chorus)

~

Keep on banging the drum  
Keep on singing the song  
That's what we were gonna do, yeah  
And the rhythm goes on  
Keeps moving along  
To the sound of you

~

I used to be lonely  
And I never felt right  
Now you put a spell on me  
And I feel good inside

I'm without an alibi  
Arrested by your smile  
I don't want to say goodbye  
I just want to stay a while

(Chorus)

I'm trying to be something that you wanna hold  
When you're in need  
I'm trying to be someone who is always there  
Always there for you

(Chorus) x2
