Look in to the future, what do you see?  
I really need to know now, is there a place for me?  
Tell me where do we go from here

Take me as you find me, for what I am  
And when I make mistakes, please understand  
And as long as I know you're near  
There is nothing for me to fear

#### CHORUS

Out of the darkness, a light shines  
Burning through the coldest night  
And we can find a way  
(together we'll make it)  
With every step we take  
(moving closer together)  
If we're gonna survive  
The dream must stay alive

Baby will you hold me, When I'm afraid  
See me through the danger, till the break of day  
If there's love there's a chance for me  
Just believe in yourself you'll see

#### CHORUS

And as long as I know you're near  
There is nothing for me to fear

#### CHORUS
