state of emergency  
condition me to feel nothing  
and not look back at all  
we fall asleep  
we cannot dream  
we try to speak  
we cannot scream  
we've bled dry every part of me to keep it secret  
keep is safe and clean  
when it feels like I am dying  
what does it feel like for you?  
break this resolve without trying  
yours can be broken too  
cannot see  
can only keep remembering  
what I know, I know, I know  
my innocence  
free from defense  
life time sentence  
d-d-d-damage, damage beyond repair  
break this down
