In this large world, there's only one,
The gift that the heavens gave to me,
My beautiful future wife...
Everytime I see her, I can't breath
It feels like I'm looking at a picture, I fly across the sky
When I'm feeling on ya booty I gets high
The scent of her brown hair,
Please wake me up to voice that's better to listen to
than any song
That's my shorty (Oh)

The moment that you entered my life, all my pain was
washed away
Who will block us now? I will protect you by your side
you know?

Everyday I fall in love with you
Over and over, over and over baby
Everynight I wanna make love to you
Over and over, over and over baby baby

You brighten up my exhausted soul.
You brighten up my past
We are still young so lets be together forever yeahh
I miss you even when I'm looking at you
I want to give to you even when I am giving to you
Girl let me take you to the top of the world
I'm not jealous of anyone in this world.

Day by day, night by night, I will dance for you
I want to give all my everything and put it in you
In your deep sea of your heart yeahh

Everyday I fall in love with you
Over and over, over and over baby
Everynight I wanna make love to you
Over and over, over and over baby baby
I wonder if you know how I feel
I woner if you feel the way that I do
Baby yeah always yes
You're warmer than the sun filled with stars

(uh~) So your heart wont be scarred,
So your eyes wont be filled with tears,
I will be with you so your two hands will not be worn out
I will always run to you, I don't expect anything else
I'll be good without any regrets
I will tell you confidently, I will live as I forever love you

Everyday I fall in love with you
Over and over, over and over baby
Everynight I wanna make love to you
Over and over, over and over baby baby
