Can?t stop my love  
Can?t stop my heart  
I'm in too deep  
I've gone too far  
Never gonna stop  
Never gonna stop loving you  
You can think that I'm just playing games  
You can think I'll do you wrong  
You can think that I don't mean a word I say  
You can think what you want  
If you're gonna stop the way I feel about you  
Baby you're just wasting your time  
'cause I'm not changing my mind  
[chorus]  
Can?t stop the rain from falling down  
Can?t stop the world from turning round  
Can?t stop my heart from loving you  
No, no, no, no  
No matter what you do baby  
You can trust that I'm gonna stay around  
You can trust I'll treat you right  
You can be sure that I won't ever let you down  
Sure as there are stars in the night  
And if you think there'll ever come a day  
I'll live without you  
Baby you're as wrong as can be  
Can?t change the way that I feel  
[chorus2]  
Can?t stop the rain from falling down  
Can?t stop the world from turning round  
Can?t stop my heart from loving you  
No, no, no, no  
No matter what you do baby  
Can?t stop a river running free  
Can?t stop this love I feel in me  
Can?t stop my heart from loving you  
No, no, no, no  
No matter what you do baby  
Can?t stop my love  
Can?t stop my heart  
I'm in too deep  
I've gone too far  
Never gonna stop  
Never gonna stop loving you  
[repeat chorus]
