Where are you tonight  
Baby nobody knows  
I'm scared that I'm losing you  
You're running away  
You're out of control  
But I won't surrender  
I'm going crazy  
I feel like a fool  
But there's no way out  
I just gotta be with you  
[chorus] Come into my life  
Can't you understand  
We belong together  
Come into my world  
Get closer again  
I need you love forever  
I'm walking alone  
But you're haunting my mind  
I'm hearing you call my name  
And I'm turning around  
Like a man who's insane  
I'm talking to myself  
Girl I know I'm losing it  
I know I'm through  
But there's no way out  
I just gotta be with you  
[repeat chorus]  
I'm going crazy  
I feel like a fool  
But there's no way out  
I just gotta be with you  
[repeat chorus]
