Every fancy club you walk into
You make the fellas go wild
And when a guy walks up and talks too you
You make him feel like a child

When you walk up to the dance floor baby
You grab the DJs attention
You ask your favorite song to dance to
And he plays with no hasitation

Is it your preety face?
Is it your sexy body?
Is it the way that you move on the dance floor girl?

I wanna see you moving moving moving
Working the floor
I wanna see you getting freaky removing your clothes
I wanna see you moving moving moving
Losing control
I wanna see you getting freaky freaky freaky...

All the single ladies hate you
Because you make them look bad
You got the body and the moves they don't have
And that just makes them go mad

Every drink that you get is a free one
You never spend any money
Everybody knows back at the mansion
You were the favorite bunny

Is it your pretty face....
I wanna see you....
