Can you hear me calling  
Is it time to go  
We are going too fast  
This is the end

All your words are lies  
I see it in your eyes  
Don't make it too hard for me  
And say this is the end

(X2)  
Can you see me in the light  
Light shines white in the night  
You can't take my breathe away  
Follow me and feel the pain  
(X2)

Do you want to go now  
Or is it time to lie  
I close my eyes for you  
I want to kiss your lips

You are so strange  
No more thinking  
What's wrong and what's right  
You can't hurt me anymore

(X2)  
Can you see me in the light  
Light shines white in the night  
You can't take my breathe away  
Follow me and feel the pain  
(X2)

(X2)  
Follow me and feel the pain  
(X2)
