I saw you as you walked away  
On a broken road to yesterday  
And it's not for you,  
It's not for you  
A broken heart a picture frame  
It's a hopeless hand  
That points the blame  
And it's just like you  
It's just like you

Drifting to the edge  
Underneath a marble sky,  
When I caught myself  
In the desert of your eyes

The story told a great divide  
It's the one I've heard a million times  
And it's so cliché the words you say  
Watch you as you waste the day,  
I know it's not for me to say  
But it's just like you,  
It's all you do

All we had is the distance of time

She's gone for a little while they said  
They said  
She's gone for a little while they said  
It's the thoughts beneath the pages  
Get stuck inside my head  
She's gone for a little while they said  
They said

Crawling with the animals  
While I'm filling up their empty skulls  
And it's all you see, away from me  
A black flag a minor threat  
The subtle stink of cigarettes  
And it's all I see, away from me

All we had is the distance of time

She's gone for a little while they said  
They said  
She's gone for a little while they said  
It's the thoughts beneath the pages  
Get stuck inside my head  
She's gone for a little while they said  
They said

I can't always be found  
I can't always be found  
I can't always be found  
I can't always be found

See how this can bleed out  
See how this can bleed out

She's gone for a little while they said  
They said  
She's gone for a little while they said they said  
She's gone for a little while they said  
It's the thoughts beneath the pages  
Get stuck inside my head  
She's gone for a little while they said  
They said
