The lack of sense it makes
To me to know the truth and still believe
Closing minds is where it breeds
To bleed and bleed the enemy
The wars we choose we cannot win
A disease inside the medicine
Take your pill and slowly look away

Bled dry
Bled dry
Now I can see
Now I can see

The lie was bold for all to see
And prey upon dependency
The weak will fall before the greed
And take from them like you took me
The promise made the outcome bleak
Some they break and some they keep
Weaken now and quickly go to sleep

Bled dry
Bled dry
Bled dry
Now I can see
Bled dry
Bled dry
Now I can see
Now I can see
