Title : We are all

Verse 1

Unite it we fight it together we'll light it
Hate it they made it together we'll burn it
Torch it we'll reinforce together they will bring us down
Live life like you live it they will do the best to (bring you down)

Chorus

We are all different & despaired
We are all living in fear
We are all forgotten & loved
We are all the same

Verse 2

Live it how you want it its wrong it has to be the way
they say
Grow up the way you wanted to this life will never be
the same for you
Die for love in this world we hate hope to god we
rejoice your fate
Be who you want forget your name and live life in
endless pain

Chorus

We are all different & despaired
We are all loved through death
We are all living in fear of death
We are all different

Interlude

This life we lead the friends we need
The hate we breed the fear we need
The death we heed from wars we breed
The life we need and the fuckin broken hearts that
bleed

Chorus

We are all different & despaired

We are all loved through death
We are all forgotten & loved
We are all fucked
