im not ready for the showdown
its already here
good luck killjoy checks his pockets he wants to keep it
fair
dont try it yourself you'll get caught in the web
and i wanted to say
if you wanted to fight well its over my head and i hope i
can stay

i'm not waiting for the trophy
to tear down everything
cmon posterboy show us your best move, its hard to be
the king
don't try it yourself you'll get caught in the web
and i wanted to say
if you wanted to fight well its over my head and i hope i
can stay
i'm not sleeping i have friends in everyone

i'm not waiting for the showdown
dont try it yourself you'll get caught in the web
and i wanted to say
if you wanted to fight well its over my head and i hope i
can stay
i'm not sleeping i have friends in everyone
