i see you

When we are  
like you  
we do what we like to do

Now i see  
that i am free  
like you

that hell you made for me  
is now over  
i can see that youre not  
having me

some people say  
that this pain  
is made for me

can' t you see  
its not like it used to be

that hell you made for me  
is now over  
i can see that youre not  
having me

go away of my mind  
dont remaind me all the time  
of you

(woman screaming)
