im a rock star in my mind
i go to crazy clubs and parties all the time
hey baby dont be shy, lets turn it up
i got a feeling that this town aint picking up

cos we are rock stars its what we do
and causing trouble seems like all we ever knew
sometimes i feel like i gotta get away
im looking at my friends and they are the ones that
make me stay

im a rock star im gonna rock
we are gonna take it, take it to the top
you are a rock star, you wanna rock
we got that feeling that we are never gonna

cos you are rock star yet in your mind
the way you dress says you party all the time
you wanna take my hand, you wanna move me
i give you anything and no one can out do me

cos i dont care about the drugs that you are taking
its only rock and roll, yeah
but if you think thats the way you make it
you are gonna lose control

im a rock star im gonna rock
we are gonna take it, take it to the top
you are a rock star, you wanna rock
we got that feeling that we are never gonna stop

cos i know i know i know i'll never make it
i know i know i know i know
