Something's heating up I can feel it
we used to live to love , now we steal it
what can I do
when you don't even seem to need it
I can feel his touch in your silence
do you see his face when you're smiling
what can I do
when you don't even try to hide it

CHORUS

Say that you didn't really mean it
say now it don't belong (say)
You know it's not what I'm saying
oh you got me all wrong
oh oh yeah I take you on
oh oh yeah I take you, take you on

Does he make you sweat the way that I do
Does he get to you the way that I do
what can you say
that you don't remember when you know that you do
(...)
in the back seat making love
What can I do, what can I do
when you

CHORUS

Say that you didn't really mean it
say now it don't belong
say it's not what I'm saying
oh you got me all wrong
oh oh yeah I take you on
oh oh oh yeah I take you, take you on
