

Twang, The "Wash Out"

Visit "[Wash Out](#)" on MotoLyrics.com

And you just keep on going
And you don't ever stop
I can shop till I drop
In your arcade of cool
I've been skipping school
I've been dancing to pop

You can stay a bit longer
I know that you can
I can see that you want to wash out with the sand

I'm so lost in you name
Like I just moved to town
I'm still stumbling around
Every turn is a trip
Every word 'cross your lips
Is a new street of sound

You can stay a bit longer
I know that you can
I can see that you want to wash out with the sand

It's all over the place,
every where, every when
any way i twill bend
You're the bug in my bed
We can sleep when we're dead
Let's do it again

You can stay a bit longer
I know that you can
I can see that you want to wash out with the sand
