"The Neighbours Can't Breathe"

Visit "[The Neighbours Can't Breathe](#)" on MotoLyrics.com

They're no thoughts of mine this time
When the paint went dry, don't fight 'cause you're right
Did it pass you by, when the shower wasn't on?
You had to lie, your secret's safe and sound

Don't frown, don't frown
'Cause everybody's wearing black clothes and I'm
wearing white
Don't frown, don't frown
There's your sister with her answer and she's always
right

You keep pulling all the heart strings

You hide it in the cupboard
You're under the sheets
You're frowning and you know it
You're happy
The neighbours can't breathe

You're coming on strong
When your friend went wrong
And I'm not in the white when we play hide and seek
And I'm not in the white when we play hide and seek

They're no thoughts of mine this time
Is your camera blind, don't fight 'cause you're right
Will it pass you by, when your sister's dead and gone?
She had to lie, her secret's safe and sound

Don't frown, don't frown
'Cause everybody's wearing black clothes and I'm
wearing white
Don't frown, don't frown
There's your sister with her answer and she's always
right

You keep pulling all the heart strings

You hide it in the cupboard
You're under the sheets

You're frowning and you know it
You're happy
The neighbours can't breathe

You're coming on strong
When your friend went wrong

And I'm not in the white when we play hide and seek

You're playing in the forest
You're down on your knees
Forgetting where you're from
You're wrong
You're begging please

You're coming on strong
When your friend went wrong
And I'm not in the white when we play hide and seek
And I'm not in the white when we play hide and seek

Although your friend went wrong
And I'm not in the white when we play hide and seek

Although your friend went wrong
