Stay, baby, don't go away
'Cause I could never find nobody to make me feel this way
Stay, baby, don't go away
'Cause I could never find nobody to make me feel this way

I won't be able to sleep peacefully
In bed without beside me, darling, darling, any more
I won't be warm and secure
Oh baby, baby, baby, like I was before

I'll just lie tossing and turning
Oh baby, baby, baby, all night long
Scared that if I closed my eyes
When I got ready to wake up I might find you gone

Stay, baby, don't go away
'Cause I could never find nobody to make me feel this way
Stay, baby, don't go away
'Cause I could never find nobody to make me feel this way

No, I never felt, never felt this way before
No, I never felt, never felt this way before
Baby, I never felt, never felt this way before
