In the embers  
I'll die slowly  
Under cover,  
Lock and key  
In the bedroom  
You'll be lying still as night and  
Under siege  
She was stolen  
An ivy unturned stone  
Deep is the hole  
In the sky  
Oh my  
As you look up  
At her face in expectation  
Swallow me  
You'll be lied to  
You will suffer  
I'm gonna get you back  
Wait and see  
Sinking stones  
But I know where they go  
Deep in a hole  
In the sky  
Overhead  
Under sleeping eyes  
It's over  
Mon amie
