Donna:

When the pubs are shut  
And the taxi queue is long  
When your brain is mashed  
And your legs are working wrong

Louise:

When you haven't pulled

Johnny and Janet:

Or even if you have

Gaz:

When you've been to Abdul's and he spat on your  
kebab

All:

Stop thinking, start drinking  
Don't worry what your parents said  
Fill your mind with beer instead

Stop thinking, start drinking  
Don't worry what your doctors say  
Your liver's ruined anyway

Janet:

When you've all been out  
And you've met the one you love

Donna:

Aww

Johnny:

But your bottle's gone  
And you might not get it up

Donna:

If you're insecure  
That you might not be enough

Janet:

Get some Alcopops  
And show the world your Muff!

All:  
Stop thinking, start drinking  
Don't worry about Health Warnings  
Think about it in the morning

Stop thinking, start drinking  
If you think your head's in trouble  
Have some more; you'll see it double

Gaz:  
Stop thinking and start drinking!

All:  
Stop thinking, start drinking

Gaz:  
Stop your thinking  
Please, start drinking  
Stop your thinking and start drinking!

All:  
Stop thinking, start drinking  
If you're scared you've had too much  
You need some courage form the Dutch

Stop thinking, start drinking  
Yeah, yeah yeah!

[Louise:  
Cheese!]
