The stars are flickering  
The sky is closing in  
But I won't let go  
No, I won't let go

I think I'm blacking out  
My ears are ringing loud  
But I won't let go  
No, I won't let go

I wanna scream  
Stuck in this dream  
It's dimming down 'til I see nothing  
Feel the cold air on my skin  
As we implode

But I will glow in the dark  
I don't need you to save me  
We will glow in the dark  
We can make it, baby

I can glow in the dark  
No matter what's around me  
We will glow in the dark  
Glow in the dark

The night is falling hard  
The shadows rip apart  
But I won't let go  
No, I won't let go

I see my world collide  
And all the light has died  
But I won't let go  
No, I won't let go

I wanna scream  
Stuck in this dream  
It's dimming down 'til I see nothing  
Feel the cold air on my skin  
As we implode

But I will glow in the dark  
I don't need you to save me  
We will glow in the dark  
We can make it, baby

I can glow in the dark  
No matter what's around me  
We will glow in the dark  
Glow in the dark

Just promise you'll hold on  
Just promise you'll hold on

But I will glow in the dark  
I don't need you to save me  
We will glow in the dark  
We can make it, baby

I can glow in the dark  
No matter what's around me  
We will glow in the dark  
Glow in the dark
