I, I was planning on making it a slow night  
But you know how that usually goes, right?  
Everybody telling me to come through, so I figure  
imma  
just stop by for a brew  
While I'm here might as well have two  
Listen to some music and take off my shoes  
Before I knew it we were jumping in the pool  
Looking at the sky, feeling like I'm on the moon

Hey, I'm so good tonight  
She ain't by my side  
And I wonder why....I remember

You told me to call you by 1  
But I wasn't thinking  
I was just out with my friends, talking and drinking  
We've been through this a hundred times  
You say I don't care at all  
But baby I love you, I'm just too fucked up to call

Oh oh oh oh oh oh  
Oh oh oh oh oh oh oh oh oh [x3]  
But baby I love you, I'm just too fucked up to call

Yeah, I'm sorry that I still haven't hit ya  
But I promise that I'll show you the pictures  
I don't play games, maybe flip cup  
Didn't even join the girls playing Twister  
And I poured you a shot 'cus I missed ya  
And two more for your mom and your sister  
It's not like I was out at a strip club - Unless you  
consider a strip club, a strip club

Hey, I'm so good tonight  
She ain't by my side  
And I wonder why....I remember

You told me to call you by 1  
But I wasn't thinking  
I was just out with my friends, talking and drinking  
We've been through this a hundred times

You say I don't care at all  
But baby I love you, I'm just too fucked up to call

Oh oh oh oh oh oh  
Oh oh oh oh oh oh oh oh oh [x3]  
But baby I love you, I'm just too fucked up to call

Baby I love you, I'm just too fucked up to call

You told me to call you by 1  
But I wasn't thinking  
I was just out with my friends, talking and drinking  
We've been through this a hundred times  
You say I don't care at all  
But baby I love you, I'm just too fucked up to call

Oh oh oh oh oh oh  
Oh oh oh oh oh oh oh oh oh [x3]  
But baby I love you, I'm just too fucked up to call

I'm just too fucked up, just too fucked up to call  
I'm just too fucked up  
Baby I love you, I'm just too fucked up to call
