Father, are you leaving us this way?
Oh, I hope that you will come back one day.
Mother, tell him to stay, 'cause I don't want him to go
away.

Just like a knife taking someone's life, pull the trigger
to your gun.
Just like a knife taking someone's life, then the deed is
done.

Times of change my friend, you know we got a land to
defend.
And your father will return.
Until then the candle of hope will burn, it will burn.

Sister, can you believe the things that our father
achieves.
Brother, can you understand, father is sent to save the
land.

Just like a knife...

Times of change...
