"Bedhead"

Visit "[Bedhead](#)" on MotoLyrics.com

I don't hear what they say
My head's too tired to stay
It's not your fault my love
But from above
It all seems pretty small

Eat. Work. Shit. Fake smile. TV.
Oh baby can't you see
If life can't do no more for me
This ain't the place to be

Let us lock the world outside
I know the perfect place to hide
From my head: This town is dead
Let's start the riot from my bed!

Let us lock the world outside
I know the perfect place to hide
From my head: This town is dead
Let's start the riot from my bed!

(Let us lock the world outside)

(Let us lock the world outside)

I can't take one more day
My mind's too bored to stay
It's not your fault my love
But from above
It all seems pretty small

Eat. Work. Shit. Die. Fake TV
Oh my baby, can't you see
If this world can't do no more for me
It ain't the place to be

Let us lock the world outside
I know the perfect place to hide
From my head: This town is dead
Let's start the riot from my bed!

(Let us lock the world outside)

(Let us lock the world outside)

(Let us lock the world outside)

(Let us lock the world outside)
(I know the perfect place to hide)
(From my head: This town is dead)
(Let's start the riot from my bed!)

Let us lock the world outside
I know the perfect place to hide
From my head: This town is dead
Let's start the riot from my bed!

Let us lock the world outside
I know the perfect place to hide
From my head: This town is dead
Let's start the riot from my bed!

(Let us lock the world outside)

(Let us lock the world outside)
