### "New Beginnings"

Inside and in life it's all just the same  
Energy moving in intricate ways  
Pumping through existence  
Making everything go 'round

Every end is the beginning  
Of a new beginning's  
End is near a new beginning  
And its end  
Going on and on and on

Death's an unfortunate name  
For a break  
Life after life, there are  
New lives to make  
A never-ending lesson to make  
Everything complete

Every end is the beginning  
Of a new beginning's  
End is near a new beginning  
And its end  
Going on and on and on...
