We'll come a long way to rip out
The heart of your city
Install a filter to get rid of
Everything pretty

What we give is what we will receive [x2]

It just takes a sad song
To keep us marching on
(To keep us marching on)
[x2]

We'll go a long way to bring back
All that has been taken
No matter if we're right or if
We have been mistaken

What we give is what we will receive [x2]

It just takes a sad song
To keep us marching on
(To keep us marching on)
[x2]

(It just takes a sad song)
To keep, to keep us marching on
[x2]

It just takes a sad song
To keep us marching on
(To keep us marching on)
[x2]

(It just takes a sad song)
To keep, to keep us marching on
[x2]
