live in fear

Dead end generation you should live in fear
mass destruction, corruption and no one cares
white is the color of those in power
red is the blood of the millions slaughtered
blue is the color of the flesh that rots
murderers go free while some are never caught
it's been said before and now it's time to listen
tune into the news, you don't know what you're missing

lies decite injustice
this is how our culture lives (2x)

six year olds with fucking guns
run away youth on the fucking run
parents who abuse their kids
yet we're told to be proud of where we fucking live
blood for crime, blood for death
blood for the fucking poor who tried their best
told to vote, cast your ballot
but the vote only counts if your the few in power

lies decite injustice
this is how our culture lives
