The kids they come from all around  
With the same look in their eyes  
They're bruised and boozed with nothing to lose  
Some don't care if they die

This world has pushed them  
Beat them to the ground  
Tonight it's different  
We stand on equal ground

We are all that we have  
No matter what they say  
We are all that we have  
And they can't take that away

See the circles form  
Bodies flying left to right  
Days of tensions fade away  
Even if it's for one night  
Controlled aggression  
Your only release  
Helps to numb depression  
Real pain will never cease

We are all that we have  
No matter what they say  
We are all that we have  
And they can't take that away

Outside these walls  
You're a misfit, messed up kid, no one to trust  
Outside these walls, you're an outcast  
Here and now you're one of us

We are all that we have  
(we are all!)

We are all that we have  
(we are all!)

We are all that we have  
(we are all!)

We are all that we

We're all that we have!
