Sayan ghayal kiya reh tune mora jigar (x2)

Stand by here we go again  
Jus you let me wait let me know again  
Aint nobody special girl im jus a friend  
i bet you cant recall my name  
I think about you everyday  
24 7 girl in every way  
try to move on but what can i say  
no1 else can take your place

(Chorus)  
I guess i done this when i should have done that  
i tried to be smart but i want you so bad  
have you ever needed what you've never ever had  
i jus cant get enough enough enough  
Jus when it looks like im gonna get close  
My lips mess up and the lyrics all float  
i jus cant wait till we freaking more frequently  
coz i cant get enough enough enough

Jus when it looks like im gonna get close  
My lips mess up and the lyrics all float
