Who am I x 5

Ohhhhh.....

Yo who am I; Nayla Boss, Keep it tight,  
I guess we got the Raghav on the mic,  
Gimme the light, got my flame, 2play,  
I done; now you love a long time...

2play:

I know I shouldn't but I got to see you tonight,  
I pick you up around nine,  
But I swear that this can't happen no more,  
Cause when I'm looking in my baby's eyes,  
I can't bare to tell her more lies,  
I gotta be stronger now then I was before,  
But when you hold me girl it's so real,  
I'm feeling things for you I can't feel,  
I know I shouldn't stay but girl I just can't leave...

Chorus:

This can't be right  
That it doesn't feel so wrong  
But when I'm all alone,  
I'm thinking of you but I'm with her  
This can't be right that it's you that's on my mind (my  
mind)  
But she's still in my life (yo)  
But your the one that's stands by my side

I wanna let go but there's summit that makes me hold  
on (tell em)  
but baby this just cant go on,  
and we're better off with nobody knows  
I never thought we would of lasted so long  
so perfect but girl its so rong  
cause I got somebody waiting at home  
but wen u hold me girl its so real  
I'm feeling things for you I can't feel  
I know I shouln't stay but girl I just can't leave

Chorus:

This can't be right  
That it doesn't feel so wrong (So wrong)  
But when I'm all alone, (All alone)  
I'm thinking of you but I'm with her  
This can't be right that it's you that's on my mind  
But she's still in my life (My life)  
But you're the one that stands by my side

Nayla:

Who-a blast, her blast, who blasts you,  
Equals arrest, Consequence like oooooo.....  
I'm gonna get mine you know I don't really care,  
But I got a soft spot for your girl right there,  
Hate to be the mistress ain't trying to be the wife,  
Got a hubby here so we gotta keep it tight,  
Keep it on the hush on the low or whatever,  
Ain't no competition I could tell her to do better...

2play:

Girl you know I can't, there's too much to lose,  
It's you that I want but, put yourself in her shoes,  
It hurts to think if she only knew,  
What'd be on her mind, what she'd be going through

Chorus:

This can't be right  
That it doesn't feel so wrong  
But when I'm all alone,  
I'm thinking of you but I'm with her  
This can't be right that it's you that's on my mind  
But she's still in my life  
But you're the one that stands by my side (Uh oh Uh oh  
Uh oh)

x3
