Seeing my Reflection on the surface,  
The water mirrors my face  
Into a bent and twisted form  
I was here but now I'm gone again  
I watch the waves take away my only friend  
Straining to see  
Just a little closer now  
I start to sink  
As I fall in

Sinking Now I'm Going down  
Will I hit the bottom before I drown  
Gasping out a dying breath  
Will this bbe the place of  
My final rest...

Sinking below depths that you'll never know  
Feeling the current pulling me  
Feeling this undertow  
Feeling it pull me further  
Than I'd dare to go  
Deeper now the sun is gone  
There's nothing to guide me  
To where I don't belong  
As these waves  
... They carry me along

Sinking now I'm going down  
Will I hit the bottom before I drown  
Gasping out my dying breath  
Will this be the place of my final rest!!!

Feel the undertow  
Churning me 'round  
Will I take a breath or  
Will I drown  
Will I find the light  
Or let this darkness settle in  
Now i have to choose  
.. Do I sink or do I swim?

Now I have to choose  
Do I sink or Do i swim  
Now I have to choose
