"Hello"

Hello
Can you hear me
Are you even listening at all?
Hello
Did you miss me
Did you know i was ever here at all?

Hello
I've been here waiting for you
Did you hear i found the truth today?
Hello
I guess I'll leave here
You wouldn't want me here anyways!

Hello
I use to love you
Do you ever think about the days?
Hello
It was nice to know you
Even though you've always felt the same!

It's like a black rain beating down on me
Your voice still remains
And haunts me in my dreams
I cannot let go
Too much of you still shows
Cheating myself out of time
There are no more hello's
Only goodbye

So goodbye
Can you hear me
Were you ever listening at all?
Goodbye
Will you miss me
Did you know I was ever here at all?
