Be like me, quit your job  
Money don't mean anything much  
I took a means of transport  
Down to your old school  
All the way thinking how

That you were once for me  
Like I once was for you  
That you were once for me  
Like I once was for you

Around the world they have been told  
She let me down lightly in love  
She took a means of transport  
Down to my old school  
All the way screaming how

That you were once for me  
Like I once was for you  
That you were once for me  
Like I once was for you

Oh, you hate everything I do  
Oh, you say nothing good reminds me of you

Oooh...

When you arrive, and when you leave  
Nothing will change here, and so...  
You take a means of transport  
Down to our old school  
Tearing your photos of her

And you were once for me  
Like I once was for you  
And you were once for me  
Like I once was for you
