In any case
And at any rate
When two people make a plan
They do everything they can

Surround yourself
In something else
No it isn't complicated
I just wanted you

To be there (x4)
And i miss you now
Because i want you

To understand
Though it's nothing grand
I'll lay it on the line
I just wanted you

To be there (x4)
And i miss you now
Because i want you

To understand it happens all the time
Happens all the time
It happens all the time
It happens all the time

To be there (x4)
And i miss you now
Because i want you

To be there (x4)
And i miss you now
Because i want you
